SAFETY PRECAUTIONS

If not used properly this lawnmower can be dangerous! This lawnmower can cause serious injury to the operator and others, the warnings and safety instructions must be followed to ensure reasonable safety and efficiency in using this lawnmower. The operator is responsible for following the warning and safety instructions in this manual and on the lawnmower.

Explanation of Symbols on the Minimo

Warning

Read the user instructions carefully to make sure you understand all the controls and what they do.

Switch off, remove plug from mains before adjusting, cleaning or if cable is entangled or damaged.

Always keep the lawnmower on the ground when mowing. Tilting or lifting the lawnmower may cause stones to be thrown out

Do not mow in the rain or leave the lawnmower outdoors while raining

The use of eye protection is recommended

General

1. Never allow children or people unfamiliar with these instructions to use the mower. Local regulations may restrict the age of the operator.
2. Only use the lawnmower in the manner and for the functions described in these instructions. Only use this lawnmower for cutting grass.
3. Never operate the lawnmower when you are tired, ill or under the influence of alcohol, drugs or medicine.
4. The operator or user is responsible for accidents or hazards occurring to other people or their property.

Electrical

1. The use of a Residual Current Device (R.C.D.) with a tripping current of not more than 30mA is recommended. Even with a R.C.D. installed 100% safety cannot be guaranteed and safe working practice must be followed at all times. Check your R.C.D. every time you use it.
2. Before use, examine cable for damage, replace it if there are signs of damage or ageing.
3. Do not use the lawnmower if the electric cables are damaged or worn
4. Immediately disconnect from the mains electricity supply if the cable is cut, or the insulation is damaged. Do not touch the electric cable until the electrical supply has been disconnected. Do not repair a cut or damaged cable. Replace it with a new one.
5. Your extension cable must be uncoiled, coiled cables can overheat and reduce the efficiency of your mower.
6. Keep cable away from lawnmower, always work away from the power point mowing up and down, never in circles.
7. Do not pull cable around sharp objects.
8. Always switch off at the mains before

disconnecting any plug, cable connector or extension cable.

9. Switch off, remove plug from mains and examine electric supply cable for damage or ageing **before** winding cable for storage. Do not repair a damaged cable, replace it with a new one. Use only Flymo replacement cable.
10. Always wind cable carefully, avoiding kinking.
11. Never carry the product by the cable.
12. Never pull on the cable to disconnect any of the plugs.
13. Use only on AC mains supply voltage shown on the product rating label.
14. Flymo products are double insulated to EN60335. Under no circumstance should an earth be connected to any part of the product.

Cables

Use only 1.00mm² size cable up to 30 metres length maximum.

Maximum rating:

1.00mm² size cable 10 amps 250 volts AC

1. Mains cables and extensions are available from your local Electrolux Outdoor Products Approved Service Centre.
2. Only use extension cables specifically designed for outdoor use.

Preparation

1. While using your product, always wear substantial footwear and long trousers.
2. Make sure the lawn is clear of sticks, stones, bones, wire and debris; they could be thrown by the plastic cutters.
3. Before using the machine and after any impact, check for signs of wear or damage and repair as necessary.
4. Replace worn or damaged plastic cutters in pairs to preserve balance.

Use

1. Use the lawnmower only in daylight or good artificial light.
2. Avoid operating your lawnmower in wet grass, where feasible.
3. Take care in wet grass, you may lose your footing.
4. On slopes, be extra careful of your footing and wear non-slip footwear.
5. Mow across the face of slopes, never up and down.
6. Exercise extreme caution when changing direction on slopes. Walk never run.
7. Mowing on banks and slopes can be dangerous. Do not mow on **banks** or **steep** slopes.
8. Do not walk backwards when mowing, you could trip.
9. Never cut grass by pulling the mower towards you.
10. Switch off before pushing the mower over surfaces other than grass.
11. Never operate the lawnmower with damaged guards or without guards in place.

SAFETY PRECAUTIONS

12. Keep hands and feet away from the cutting means at all times and especially when switching on the motor.
13. Do not tilt lawnmower when the motor is running, except when starting and stopping. In this case, do not tilt more than absolutely necessary and lift only the part which is away from the operator. Always ensure that both hands are in the operating position before returning the appliance to the ground.
14. Never pick up or carry a mower when it is operating or still connected to the mains supply.
15. Remove the plug from the mains :
 - before leaving the mower unattended for any period;
 - before clearing a blockage;
 - before checking, cleaning or working on the appliance;
 - if you hit an object. Do not use your lawnmower until you are sure that the entire lawnmower is in a safe operating condition.;
 - if the lawnmower starts to vibrate abnormally. Check immediately. Excessive vibration can cause injury.

Maintenance and storage

1. Keep all nuts, bolts and screws tight to be sure the lawnmower is in safe working condition.
2. Replace worn or damaged parts for safety.
3. Only use replacement plastic cutters specified for this product.
4. Be careful during adjustment of the lawnmower to prevent entrapment of the fingers between moving plastic cutters and fixed parts of the machine.

ASSEMBLY INSTRUCTIONS

A1 - Handle **A2 - Bolt**
A3 - Handle tube **A4 - Wing knob**
A5 - Nut (if applicable)

Assembly of handle to handle tube (A)

1. Insert the handle tube into the handle as illustrated, ensuring the handle is in an upright position.
2. Insert the nut into the wing knob. (if applicable)
3. Secure with the bolt and wing knob.

B1 - Handle tube **B2 - Fixing plate**
B3 - Nut (if applicable)
B4 - Wing knob **B5 - Pegs**
B6 - Motor cover **B7 - Bolt**

Assembly of handle tube to motor cover (B)

1. Locate the handle tube onto the two pegs in the neck of the motor cover.
2. Insert the bolt through the motor cover and the centre hole of the handle tube.

3. Insert the nut into the wing knob. (if applicable)
4. Insert the fixing plate over the bolt and secure with the wing knob.

C1 - Hinge

C2 - Fixing pin

C3 - Bracket

Assembly of motor cover to hood (C)

- **Note:- Ensure the handle is to the rear of the hood when the motor cover is fitted.**

1. Align the hole in the hinge of the motor cover with the holes in the bracket on the hood. Secure by inserting the fixing pin and pressing firmly until a click is heard.
2. Repeat on the other side.
3. Secure the motor cable into the location points on the fixing plate, and to the handle tube with the cable clips provided.

STARTING AND STOPPING

D1 - Lock-off button

D2 - Switch lever

Starting

1. Hold as illustrated in **Fig D**.
2. To start, press the lock-off button down, whilst pressing the lock-off button, squeeze the switch lever.
3. When the lawnmower starts, release the lock-off button.

Stopping

1. To stop your lawnmower, release the switch lever.

HOW TO MOW

1. Start mowing the edge of the lawn nearest to the power point so that the cable is laid out on the lawn you have already cut.
2. Cut your grass twice a week during the growing season, your lawn will suffer if more than a third of its length is cut at one time.

Do Not Overload Your Mower

Mowing long thick grass may cause the motor speed to drop, you will hear a change in the motor sound. If the motor speed drops you may overload your lawnmower which may cause damage. When mowing in long thick grass a first cut with the cutting height set higher will help reduce the load. See Adjusting the Cutting Height.

ADJUSTING THE CUTTING HEIGHT

E- Highest height of cut - This symbol visible after fitting.

F- Lowest height of cut - This symbol visible after fitting.

• THERE ARE 2 CUTTING HEIGHTS

• Height of cut is adjusted by turning over the cutting head.

- Disconnect from the mains electricity supply and wait until the cutting head has stopped rotating. Turn your lawnmower upside down.

To Remove the Cutting Head and Fan (G)

1. Hold the fan firmly and twist the cutting head anti-clockwise as illustrated.

2. Hold the cutting head in the centre and remove as illustrated.

3. Hold fan in the centre and remove as illustrated.

4. Inspect for damage and clean as necessary.

To Refit the Fan and the Cutting Head (H)

1. Replace the fan as illustrated.

2. Replace the cutting head, adjusting the height of cut as required.

3. Hold the fan firmly and twist the cutting head clockwise, as illustrated.

IMPORTANT

ENSURE FAN AND CUTTING HEAD ARE CORRECTLY LOCATED

CUTTING SYSTEM MAINTENANCE

J1 - plastic cutters

J2 - cutting head

J3 - fan

J4 - hood

- **Always handle the plastic cutters with care - sharp edges could cause injury. USE GLOVES.**

Checking your Cutting System(J)

- The cutting system must be kept in good condition and inspected before and after use.
 - Disconnect from the mains electricity supply and wait until the cutting head has stopped rotating. Turn your lawnmower upside down.
1. Visually check cutting head for wear. Replace if damaged.
 2. Visually check plastic cutters for wear and replace when necessary.
 3. Plastic cutters should be straight. Replace if bent or twisted.

Replacing Plastic cutters

- Use only genuine Flymo replacement plastic cutters specified for this product. These are

available from all Electrolux Outdoor Products Service Centres and major retail outlets.

- Plastic cutters must be replaced in pairs to retain balance.
- Two plastic cutters of the same type should be fitted.

- **Never fit a steel bar blade to this product.**

To Replace Plastic Cutters (K, L)

- Disconnect from the mains electricity supply and wait until the cutting head has stopped rotating. Turn your lawnmower upside down.

1. Push plastic cutter towards centre of cutting disc (**K**). Lift plastic cutter away from cutting head.
2. If the plastic cutter is broken during use - lever cutter out of the slot, and dispose of carefully.
3. Fit new plastic cutters into the slots at each side of the cutting head and pull into place (**L**).

- **IMPORTANT**

ENSURE PLASTIC CUTTERS ARE CORRECTLY LOCATED.

CARING FOR YOUR LAWNMOWER

- **It is very important that you keep your lawnmower clean. Grass clippings left in any of the air intakes or under the hood could become a potential fire hazard. Never carry a lawnmower when it is running.**

Cleaning (M)

1. Remove grass from under the hood with a piece of wood or similar.
2. Using a soft brush - remove grass clippings from all air intakes.
3. Remove the cutting head, **see Adjusting the Cutting Height**, to gain access to the fan and clean with a soft brush.
4. Wipe over the surface of your lawnmower with a dry cloth.

IMPORTANT!

- **Never use water for cleaning your lawnmower.**
- **Do not clean with chemical, including petrol, or solvents - some can destroy critical plastic parts.**

At the End of the Mowing Season

1. Replace plastic cutters, bolts, nuts or screws, if necessary.
2. Clean your lawnmower thoroughly.
3. Ask your local Service Centre to clean the air filter thoroughly and carry out any service or repairs required.
4. Make sure that the electric cable is coiled properly.

Carrying your Lawnmower (N)

Carry your lawnmower at the point of balance with the cutting head facing away from you.

Storing your Lawnmower

Store in a dry place where your lawnmower is protected from damage.

ENVIRONMENTAL INFORMATION

Electrolux Outdoor Products are manufactured under an Environmental Management System (ISO 14001) using, where practical, components manufactured in the most environmentally responsible manner, according to company procedures, and with the potential for recycling at the end of the products' life.

- Packaging is recyclable and plastic components have been labelled (where practical) for categorised recycling.
- Awareness of the environment must be considered when disposing of 'end-of-life' product.
- If necessary, contact your local authority for disposal information.

FAULT FINDING HINTS

Fails to Operate

1. Is the Power Turned On?
2. Check the fuse in the plug, if blown replace.
3. Fuse continues to blow?

Immediately disconnect from the mains electricity supply and consult your local approved Electrolux Outdoor Products Service Centre.

Poor Flotation

1. Disconnect from the mains electricity supply.
2. Clean the underside of the hood and the fan blades.
3. Raise to a higher height of cut. See Adjusting the Height of Cut.

4. If poor flotation persists?

Disconnect from the mains electricity supply and consult your local approved Electrolux Outdoor Products Service Centre.

Excessive Vibration

1. Disconnect from the mains electricity supply.
2. Check that the blade is fitted correctly?
3. If the blade is damaged or worn, replace it with a new one.
4. If vibration persists?

Immediately disconnect from the mains electricity supply and consult your local approved Electrolux Outdoor Products Service Centre.

SERVICE RECOMMENDATIONS

- **Your product is uniquely identified by a silver and black product rating label.**
- **We strongly recommend that your product is serviced at least every twelve months, more often in a professional application.**

GUARANTEE AND GUARANTEE POLICY

If any part is found to be defective due to faulty manufacture within the guarantee period, Electrolux Outdoor Products, through its Authorised Service Repairers will effect the repair or replacement to the customer free of charge providing:

- (a) The fault is reported directly to the Authorised Repairer.
 - (b) Proof of purchase is provided.
 - (c) The fault is not caused by misuse, neglect or faulty adjustment by the user.
 - (d) The failure has not occurred through fair wear and tear.
 - (e) The machine has not been serviced or repaired, taken apart or tampered with by any person not authorised by Electrolux Outdoor Products.
 - (f) The machine has not been used for hire.
 - (g) The machine is owned by the original purchaser.
 - (h) The machine has not been used outside of the country for which it was specified.
 - (i) The machine has not been used commercially.
- * This guarantee is additional to, and in no way diminishes the customers statutory rights.

Failures due to the following are not covered, therefore it is important that you read the instructions contained in this Operator's Manual and understand how to operate and maintain your machine:

Failures not covered by guarantee

- * Replacing worn or damaged plastic cutters.
- * Failures as a result of not reporting an initial fault.
- * Failures as a result of sudden impact.
- * Failures as a result of not using the product in accordance with the instructions and recommendations contained in this Operator's Manual.
- * Machines used for hire are not covered by this guarantee.
- * The following items listed are considered as wearing parts and their life is dependent on regular maintenance and are, therefore not normally subject to a valid warranty claim: plastic cutters, Electric Mains cable.
- * **Caution!**

Electrolux Outdoor Products does not accept liability under the warranty for defects caused in whole or part, directly or indirectly by the fitting of replacement parts or additional parts that are not either manufactured or approved by Electrolux Outdoor Products, or by the machine having been modified in any way
